SightSpace 3D Mobile Augmented Reality App Now Supports SketchUp 2015

Limitless Computing's SightSpace 3D Integrates Virtual and Real World for AEC

BOULDER, CO - November 5, 2014 - [Limitless Computing Inc.](#)[®], a leading provider of 3D mobile Augmented Reality (AR), today announced that its SightSpace 3D Mobile AR apps now support Trimble SketchUp 2015.

[SightSpace 3D](#) with AR combines digital models created in Trimble SketchUp, the Trimble 3D Warehouse, and Google Earth with a real world environment, in real time, and to scale. Annotate, bookmark views, take screenshots, and share notes and photos. In English, Spanish, French, and Chinese. SightSpace 3D comes with a 14-day free trial of a SightSpace Pro subscription to unlock advanced features and capabilities including connecting an external GPS for accurate AR, location markers for AR that are ideal for indoor use, photo markup and annotation, animated bookmarks, dimensions, and more. Apple and Android versions available; \$39.99

“We are committed to providing the highest level of support to the SketchUp community as quickly as possible,” commented Dr. Errin T. Weller, president, Limitless Computing Inc. “SightSpace’s support of SketchUp 2015 enables users to easily continue to take their models mobile, while using Augmented Reality to overlay it onto the live camera feed of a device for viewing in real-world and real time.”

Limitless Computings’ suite of Augmented Reality (AR) products for Trimble SketchUp pre-visualizes buildings, materials, fixtures, and more, using a mobile device to enable professionals to effectively communicate scale and context, saving time and money, and closing deals faster by bringing designs to life in a real-world context.

About Limitless Computing

Boulder, CO-based [Limitless Computing Inc.](#) is an award-winning mobile company specializing in Augmented Reality. Limitless Computing brought Augmented Reality to the AEC industry and Trimble SketchUp with the mobile application SightSpace 3D and later SightSpace Pro and View. (www.LimitlessComputing.com)
